```java
1  //50. Create a program using continue to sum all
   positive numbers entered by the user; skip any
   negative
2  //numbers.
3  import java.util.Scanner;
4
5  public class SumPositive {
6      public static void main(String[] args) {
7          Scanner sc = new Scanner(System.in);
8          int sum = 0;
9
10         System.out.println("Enter numbers (type -999
   to stop):");
11         while (true) {
12             int num = sc.nextInt();
13             if (num == -999) break;
14
15             if (num < 0) continue;
16
17             sum += num;
18         }
19
20         System.out.println("Sum of positive numbers
   : " + sum);
21     }
22 }
23
```
